this book contains twelve major essays written by prominent historians from the netherlands belgium and the united states on the early enlightenment in the dutch republic and more in particular on the main schools of thought that made up its philosophical profile

the handbook a history of science in the netherlands aims to correct this situation by

providing a chronological and thematic survey of the field from the 16th century to the present essays on selected aspects of science in the netherlands and reference biographies of about 65 important dutch scientists

through a detailed study of spinoza s concept of experience moreau shows how spinoza extends the power of reason to domains frequently seen as irrational from common life to history language to the passions where previously spinoza s thought was identified exclusively with the geometrical method moreau demonstrates that by mobilising his unique account of experience spinoza is able to capture the singularity of individuals their lives languages passions and societies with readings of each of spinoza s most famous works from the treatise on the emendation of the intellect to the ethics and also minor writings such as the hebrew grammar moreau renews our understanding of spinoza s philosophy by showing us how his geometrical and experiential methods operate simultaneously finally this new vision of spinoza s philosophy illuminates the enigmatic experience of eternity mentioned in book v of spinoza s ethics

overzicht van de 19e eeuwse navolgers in nederland van de 17e eeuwse filosoof spinoza

nieuwentijt bernard

dit nieuwe inzicht riep allerlei beangstigende vragen op

this volume contributes to the current reassessment of the glorious revolution by bringing together the work of leading american british and dutch scholars who present a series of interpretive case studies on a wide variety of political economic religious and cultural issues what emerges from these fifteen essays is the conviction that in spite of differing angles of approach the process of reinterpreting the revolution requires a combined study of english and dutch history within the context of european history the long tradition of viewing the events of 1688 89 as a uniquely british affair which gave birth to liberal england with its contingent political and religious liberties is finally put to rest

studie over de betekenis en verschijningsvormen van een stadslandschap vanuit historisch en filosofisch perspectief

leven en werk van natuurwetenschapper carolus linnaeus 1701 1778
